TELEPHONE: 0721340040/072279087

Alfa Star Self-help Group works in alternative energy, with branches in Nairobi and Nyeri Kenya.

We have developed innovative technology to convert solid biomass into low cost fuel briquettes.

We aim to displace over 40% of municipal solid waste by recycling, and at the same time provide a sustainable, cheaper energy alternative.

This contributes to job creation, sustainable fuel, clean environment and better communities.

## PRODUCT PRICE LIST

WEIGHTS	K.S.H.s
25 kg	400.00
50kg	700.00

*Delivery 100.00 per bag  
Orders of 50 bags & above delivered free.*

Our briquettes are smoke free - no sparks or smell.

There is growing interest in use of waste to produce affordable sources of energy. We appreciate this need and therefore offer hands-on-training for interested parties. Prices range from 10,000 (ten thousand) per day for management level visitors to 30,000 (thirty thousand) per week for workers on training placement.
